

# SHELL CHEMICAL CORPORATION

POST OFFICE BOX 211  
TORRANCE, CALIFORNIA  
September 23, 1955

Shell Oil Company  
1008 West Sixth Street  
Los Angeles 54, California

Attention: Mr. M. R. Howells, Land Department

Gentlemen:

Further to telephone conversation of last week, attached are spare copies of license agreements between the Department of Water and Reconstruction Finance Corporation as follows:

1. Agreement dated May 1, 1948, covering easement for fences, 2-1/2" slurry line, a 2" propane line and roadway across the transmission line right-of-way of the department within the Styrene Plant.
2. Agreement dated May 1, 1948, covering easement for fences, roadways, overhead wires, various pipelines, pipeways and sewers across the transmission line right-of-way of the department within the Butadiene Plant.

We have been requested by Mr. Chase of the Department of Water and Power to submit a consent agreement to transfer the first item above to Shell Chemical Corporation. We are forwarding the second listed item also as it appears to require the same treatment.

Also attached is an extra copy of a side track agreement between Pacific Railway Company and Dow Chemical Company as agent for Reconstruction Finance Corporation covering the trackways in the Styrene Plant that will no doubt require assignment to us. We understand there was also a side track agreement with Pacific Electric Railway covering the Copolymer Plant area. You may be able to get the details from Pacific Electric in order to arrange an assignment.

You may recall our previous discussion regarding pipelines owned by Standard Oil Company transversing our Copolymer Plant carrying feedstock recycle between our Butadiene Plant and Standard's El Segundo Plant. We have now learned that an easement was granted to Standard Oil Company by the Federal Facilities Corporation or the Disposal Commission just prior to the sale of the plants. We would appreciate your inquiring with the Real Estate Department of Standard Oil Company for details or copies of this agreement for our files.

 No mandrels & equipment.

September 23, 1955

On receipt of additional documents from the Midland Rubber Corporation, we plan to review all the information available on easements, etc., and will forward to you any items that may require your attention.

Yours very truly,

SHELL CHEMICAL CORPORATION

N. K. Grover  
Chief Accountant
